ANNUAL REPORT OF SCHOOL DIRECTORS AND ADMINISTRATION TO RUTLAND TOWN CITIZENS

In an effort to save tax dollars the format of the annual report has been consolidated. This report is a combined effort of your School Board of Directors, your Superintendent and your Principal. It expresses certain views and concerns that we want to share with you at this time.

The past year has been very busy for the School Board and the Administration. The Town voted on June 26th to have the School Board conduct a junior-senior high school study and appropriated \$8,000.00 for the study. The challenge was accepted by the School Board and a very thorough study is being conducted. We would like to thank the 35 people who represented all facets of our community for their time and effort. We strongly urge you to consider the building of a junior-senior high school. Not only will the building help with the very crowded conditions at the present (K-8) school but it will also provide a high quality of education for all the children (K-12) of Rutland Town. The building has been designed to be a Community Center to serve the needs of all the citizens, something that we have needed for a long time.

The present system of tuitioning students is similar to "Taxation without representation". The question is, how long shall we continue to pay to operate the Rutland School System and have no say in the policies, curriculum and operation of that system? Today, more than ever, the cooperation of all is needed to maintain a high level of education in our community. It is very difficult to have a continuous K-12 philosophy and curriculum for our children when they attend four different high schools. We are dedicated to this end and ask you to join us in our effort. Let us engender in ourselves a sense of responsibility to work for a K-12 school system, which in turn will prepare students so that their lives will show pride in themselves and in their community, for education is not only a preparation for life but is life itself.

The pride that will be instilled in everyone of us to say that we are educating all of our children and the unity that it will bring to the town is one of the intangible assets that is difficult to explain but is certainly a reality.

During the summer, repair work had to be done on the leaching field and the drainage ditch. This work created an \$8,800.00 unbudgeted expenditure for the Board. We feel that the situation is greatly improved and we were able to gain a great deal of more usable playground area in back of the school.

The budget this year represents the rapid changes that have been occurring in the school system and the economic conditions of our society. Due to the increasing enrollment (June 30, 1973—519 pupils, January 2, 1974—549 pupils) the cafetorium and the library are used for some Art classes and the cafetorium is also used for Physical Education classes. Next year the two rooms will have to be used more extensively which will, unfortunately, limit the use of the library as an education resource center. Two new teachers will be added to the staff to keep the pupil-teacher ratio at a reasonable level. Increased time for Art, Music, Girls Physical Education, Industrial Art, Home Economics, School Nurse and an additional aide to work in the library and to help with supervision will be added to keep pace with our rapid growth. The proposed 1974-75 school budget had to reflect the aforementioned changes.

We would like to take this time to express our best wishes and sincere appreciation for 46 years of distinguished service to Miss Ann Reilly who retired this year. Mrs. Doris Geno, our excellent music teacher for 20 years, also retired this year and will be missed by all of us.

Hatii School is rented and during the year had some repairs. It is now in good condition. Cheney Hill School was rented to the Head Start Program. But due to State requirements on the water supply and the septic system this has had to change. There will have to be some decision made on this building in the near future. Center Rutland as a building is in sound condition and the Selectmen, Rutland Town Building Committee, and the School Board reached an agreement on the use of the building as a Town Office Building. The future use as a school will hinge upon the March school vote.

We feel that the moral at the school is very high and would like to thank the teachers for their hard work and dedication to the students of Rutland Town. We have met informally with the teachers to discuss their concerns. These meetings have been open, cordial and extremely helpful. We also concluded negotiations this year in early December with both groups agreeing that a fair and reasonable compromise was met. It should be noted that the teachers salaries listed in the Town Report are for a 14 month period. The teachers were paid for July and August of 1972 and July and August of 1973, for a pay of 14 months. This was done to correspond the teacher total salary with the same budget year.

We would like to thank our very active and hard working P.T.O. for their many contributions to the school. It would be impossible to list all of their efforts but certainly the cooperation of many of their members has helped to strengthen our total school program.

During the past year we have made a serious attempt to improve communications with all of the citizens of Rutland Town. One of the avenues of communications has been a newsletter, sponsored by the P.T.O. and been a cooperative effort of the School Board, Superintendent, Principal and Faculty. These newsletters have described the curriculum and activities of the school.

It is our goal to continually improve communications with the people of Rutland Town. The School Board meets regularly at 7:30 p.m., the first Tuesday of every month at the Elementary School. Please feel free to attend these meetings and share your ideas and concerns. A free, open dialogue between the School Board, citizens, administration and teachers in an atmosphere of understanding and mutual respect can only help to improve the high quality of education that we all want for the children in Rutland Town.

This has been an excellent year for our Department. We are indeed proud of Cleto DelBianco for having been awarded the 1973 Vermont State Fireman of the year. Special thanks and appreciation to Theodore Hubbard for the free services to both our stations. To all of our dedicated workers of the Town, businesses and the Ladies Auxiliary for your continued support we are most grateful.

I wish to take this opportunity to thank all the loyal and dedicated firemen in our Department for their outstanding work and support, which is most vital for the protection of our fast growing Town.

RUTLAND REGIONAL PLANNING COMMISSION ASSESSMENTS

The RRPC, at its January 8, 1974 regular meeting, unanimously established a schedule of assessments for continued membership. The schedule represents a decrease in the *rate* of assessment from 0.4 percent to 0.31 percent. However, we have used the most recently certified equalized grand list figures and as a result there has been some increase in the total dollar amount. The Commission felt that assessments based on the equalized grand list was the most equitable means of distributing the local costs of the Regional Planning program. For Rutland Town the amount is \$1,374.00. We would appreciate your including this amount as a line item in your budget as authorized under Section 4346 of the Vermont Planning and Development Act (Title 24, Chapter 91). Utilization of Federal Revenue Sharing Funds to cover this cost is also permitted. You may wish to consider this alternative. A vote could also be taken.

We ask your attention to this matter in order to continue our services to your town. The participation and cooperation of the Regions towns in the Regional Planning Program is particularly important in the coming year. Amendments to the Planning Act and the probable passage of a State Land Use Plan will require substantial planning efforts on the part of the communities in the county. The Regional Planning Commission, through your support, is prepared to assist you in meeting the requirements of these legislative mandates while maintaining strong local control over the direction of development.

Thanks for your cooperation. Feel free to contact me if you desire further information or assistance. In the meantime, the staff is preparing a more detailed account of services provided directly to your town. This will be made available prior to town meeting.

Sincerely,

RUSSELL L. MORGAN

Executive Director

RUTLAND TOWN PLANNING COMMISSION
1973 ANNUAL REPORT

This report is submitted in accordance with 24 V.S.A. section 4326.

Interim zoning which has been in force for two years, has been readopted for a one year extension, by approval of the Agency of Development and Community Affairs.

Mr. Barry Burke the zoning administrator and the zoning board of appeals and selectmen have been very active and several appeals heard after the necessary fifteen (15) day advertisement period, as required by statute.

After adoption of a Land Use Plan by the present legislature the Town Planning Commission will work on a Town plan which is compatible with said state plan, and hold the required Town hearings.

Subdivision regulations and permanent zoning are truly very necessary in the near future to help regulate and control the rapid growth in Town.

Respectfully submitted,

Town Planning Commission

CLIFFORD THATCHER, Chairman
